CAREER FIELD POST ALLOCATION PRINCIPLES AND PRACTICES

ALLOCATION PRINCIPLES

Principle 1	DS Sec is responsible for the allocation of all joint and rotational posts at OF5 and above to the Defence CF. The sS are responsible for the allocation of all sS posts to CF.
Principle 2	As the norm, posts are mapped on the basis of their individual function and not the function of the organisation of which they are a part. Hence organisations that perform multiple roles may have staff in different CF that reflect this (e.g. HQ LONDIST is assessed to generally perform an Op Sp function but as it has home security responsibilities some of its posts are likely to fall into the Ops CF). There will be instances where the function of the organisation can be used as additional guidance for determining the appropriate CF of a post.
Principle 3	Posts from the staff branches within deployable formation HQ are likely to fall into the following CF: J1 – Pers or Op Sp CF (depending on precise post function) J3 & J5 – Ops CF J2, J4, J6 & J7 – Op Sp CF J8 – Op Sp CF J9 – DE CF
Principle 4	A post should be allocated to only one CF, which should be the CF to which the majority of its functions relate or to which the majority of the post-holder's time is dedicated.

ALLOCATION PRACTICES

Practice 1	MA appointments may fall into the CF of the principal they support (on the basis that they accumulate significant knowledge and experience relating to the CF within which their principal operates) or Management of Defence, as deemed most applicable by Job Owner/Sponsor.
Practice 2	Staff posts in DSF, SRR and SFSG will generally relate to the Ops CF but posts performing enabling functions within these organisations are likely fall into the other relevant CF.
Practice 3	PJHQ performs a function that relates directly to the Ops CF but a number of staff branches have posts that will better align with other relevant CF.
Practice 4	Staff posts associated with the planning, execution and command and control of intelligence gathering operations (HUMINT, ISTAR, etc.) fall into the Ops CF but Int and Sy posts generally fall into the Op Sp CF.

Practice 5	All Media and Corporate Communications posts fall into the DE CF.
Practice 6	All DA, Exchange Officer and Liaison Officer posts generally fall into the DE CF. However, while the purpose of having an Exchange Officer post is to gain influence with the host nation this is not the function of the post (i.e. it could be Ops). Career managers and Job Owners will need to decide which CF has primacy. This may also apply to Liaison Officer posts.
Practice 7	Posts in MSP, IPP, NEP, Ops Dir, TIO, DOC or DCMC will generally fall into the MD CF but some posts will be in the Ops CF.
Practice 8	As a rule, posts within Cap Dev will fall into the C&A CF.
Practice 9	As a rule, DE&S SCM posts will fall into the C&A CF.
Practice 10	Specialist technical and engineering posts are likely to be allocated to the Op Sp CF if providing direct support to deployable operations and otherwise to the C&A CF. This will include: military infrastructure engineering; maritime platform, safety and systems engineering; electrical and mechanical platform, safety and systems engineering; aviation and aero platform, safety and systems engineering and communications and network engineering.
